### SUMMARY

Innovative .NET Developer specializing in the wealth management domain, with expertise in crafting robust applications using .NET frameworks. Experienced in integrating third-party services to enhance application functionality and improve client engagement. Proficient in database management with PostgreSQL and SQL Server, ensuring efficient data handling and storage. Passionate about continuous improvement and staying ahead of industry trends to deliver cutting-edge technology solutions.

### SKILLS

#### Web Technologies

- C# Programming
- ASP.NET Core Framework (6, 8)
- RESTful API Development
- Entity Framework Core
- Dapper
- RDLC
- Azure DevOps (Board, Repos, Pipelines(Build & Release), Artifacts)
- Azure Cloud (App Service)
- HTML
- CSS
- TypeScript
- JavaScript
- Angular

#### Database System

- SQL Server
- PostgreSQL

#### Tools & Technology

- Git
- Github copilot
- Taiga

### WORK EXPERIENCE

#### Ikione Systems Pvt. Ltd.

June 2024 - Present

#### Projects : -

##### #1 Handelsbanken e-Banking

Technology :- ASP Dotnet Core 6, SQL Server, Angular 14, Jira, Git, Docker

- Developed a robust application to manage customer funds and portfolios, streamlining investment tracking and administration.
- Implemented savings plans, providing users with tailored financial options for improved asset management.
- Utilized the ProBroker third-party integration to retrieve instrument data, including funds and savings plans, enhancing users' ability to manage their investments.
- Integrated Morningstar, a third-party service, to obtain live market data, providing real-time insights for informed decision-making.
- Utilized SQL Server for efficient data storage and management, ensuring data integrity and optimal performance..

## #2 Welthmapper Standard

Technology :- ASP Dotnet Core 8, SQL Server, Angular 17, Git, Taiga, Figma, RDLC Report, Windows IIS Server

- Developed a comprehensive solution for managing customer portfolios, funds, and equities, enabling efficient tracking and administration of investments.
  - Implemented features for handling funds and recurring deposits, facilitating seamless financial transactions for users.
  - Utilized the ProBroker third-party integration to access instrument data, including funds, savings plans, and equities.
  - Integrated Milistream, a third-party service, to provide access to live market data for funds and equities.
  - Utilized Figma, a cloud-based design tool, to create the user interface and develop APIs, translating design concepts into functional elements for the application.
  - Conducted unit testing using NUnit to ensure the reliability and functionality of application components.
  - Utilized PostgreSQL to enhance data management and storage capabilities, prioritizing data integrity and optimizing performance.
  - Used Windows IIS Server to optimize build and deployment processes, improving development efficiency and ensuring consistency across various environments.
- 

## EDUCATION

**Post Graduate Diploma in Advanced Computing (PG-DAC)**  
Institute for Advanced Computing and Software Development.  
CDAC Pune  
Grade : A  
Percentage : 73.38%

Sep 2023 - Feb 2024

**Bachelor of Technology (B-Tech)**  
Bharatratna Indira Gandhi College of Engineering Solapur.  
Grade : 8.23 CGPA

July 2020 - May 2023

---

## ADDITIONAL INFORMATION

- **Date of Birth** : 21 May 1999
- **Languages**: English, Hindi, Marathi
- **Passport** : Available
- **Nationality**: Indian
